HONOLULU, HAWAII TERRITORY, TUESDAY, OCTOBER 3, 1916. —SEMI-WEEKLY.

WHOLE NUMBER 4554

## DUGAR DMY LIBERATED BY SWIF STROKE OF ROMANIANS

Troops Operating In Dobrudja  
District and Important Sea  
Port of Varna On Black Sea  
Coast. Threatened By Invasion

RUSSIANS CONTINUE THEIR  
THRUSTS AGAINST LEMBERG

Vienna and Berlin Alike Admit Defeat  
In Southern Galicia, Where  
The Slavs Are Forging Ahead;  
Weather Hampers Battle

**SUMMARY OF THE WAR NEWS**  
Rumanians cross the Danube, attacking Varna, chief seaport of Bulgaria, and the forces under the command of General von Mackensen operating in the Dobrudja district.  
Russia continues her last drive against Lemberg, and reports that she has been successful, capturing important positions and many hundreds of prisoners from the Teutons. Berlin and Vienna admit this.  
Mackensen is the scene of fresh fighting between the Serbs and the Bulgars, and the British and Bulgars, with the Allies continuing their steady advance in spite of stubborn resistance.  
Weather again hampers the operations of the Russian forces in the Dobrudja district, where the Rumanians have crossed the river, while the main line of communication of the von Mackensen troops is even nearer to the attacking forces.  
Rumanians Strike Hard  
As the Rumanians struck so did the Russians under General Brusiloff. The Slavs pressed home their advantage gained by their offensive on the Zlota Lipa front driving the Teutonic troops before them and capturing a large number of prisoners.  
Vienna and Berlin both admitted the advance of the Russian forces, and reported that the Austro-Germans had lost important ground between the Zlota Lipa River and Poturi, where they had to fall back before the driving force of the Russians.  
Counter Attacks Fail  
Petrograd reported that heavy counter attacks by which the Teuton commanders hoped to stem the rush of the Slavs, had proved unavailing, and that Brusiloff had continued his advances. The official report of this fighting, made by the Russian general staff announced that the troops had taken 1600 German and Austrian prisoners.  
In Macedonia the Serbian armies have been continuing their gains of the last few days, according to statements issued last night by the war office here and in London. In the last two days the Serbians have advanced one and one quarter miles north of Kaimakalan Heights, and have taken the village of Kotehovie.  
The Bulgars operating against the British on the Struma river counter attacked yesterday, but were beaten back by the British with heavy loss.  
Weather Hampers Fighting  
In the west the fighting has again been delayed and hampered by wet weather, which prevented the movement of large numbers of men, and kept the guns stationary. In spite of these handicaps both sides launched attacks and counter attacks, the British reporting that they had made material gains in the sector north of Javel, to the north of Courcellette, and that the German counter attack drove them out of a part of the trenches they had occupied.  
The Berlin report of the western fighting, says that the Allies attacked over a twelve mile front, but were repulsed with heavy loss.

## Men Fight To Death When 'Slave' Woman Is Sold At Auction

Horrors of Servitude Are Enacted  
In Chicago In Drama That  
Tells of Serfdom

(Associated Press by Federal Wireline.)  
CHICAGO, October 3.—Over a woman, put on the block for sale to the highest bidder, seven men fought with revolvers in a roadhouse near this city last night. One man is dead, another is seriously wounded and five are fugitives from the police.  
The woman was offered for sale by Daniel Hartman, according to the proprietor of the roadhouse, who announced the upset price at two hundred dollars. Bidding was lively and the hammer fell.  
Then a dispute arose as to who was the highest bidder and from words the men turned to action, drawing revolvers and opening fire upon each other.

## ZEPPELIN DOWNED BY BRITISH GUNS

Thousands In London See Monster Aircraft Burst Into Flames  
and Plunge Earthward

(Associated Press by Federal Wireline.)  
LONDON, October 3.—Two Zeppelins participated last night in a big raid on England, particularly the east coast counties. One person was killed and the material damage done by the raiders was small, according to official reports from the war office today.  
Two of the machines flew over London and attempted to drop bombs in the city, but immediately the searchlights picked them out against the dark sky and a fusillade was turned loose from the anti-aircraft guns while several British aeroplanes took the air against them. One of the "Zepps" was driven away and the other destroyed.  
The machine which was destroyed burst into flames in the air, in full view of thousands of people in the outskirts of London. It fell near Potter's Bar. The crew was burned to a crisp as the big airship fell.  
Farmers watching the bombardment saw the huge envelope of the machine burst into flames. The Zeppelin remained stationary a minute and then dropped, its burning mass landing eighty yards from a farmer's cottage.  
A despatch from Amsterdam says that Count Zeppelin, inventor of the airship which bears his name, had planned to accompany the German air fleet on last night's raid, but at the persuasion of his family abandoned the idea at the last moment, after having made all preparations to go.

## ZEPPELINS PROVING COSTLY PLAY THINGS

LONDON, September 15.—In the last two years there have been forty-one Zeppelin raids on England, twenty-three in 1915 and eighteen in 1916, including the one last Sunday morning. This summary does not take into account the many aero and airplane attacks and the numerous abortive
